

# Rotonda West Association

## A Vibrant Florida Destination

### Manager's Report September 4, 2020

The Office Staff has been steady in collection efforts by calling residents with past due balances this week. The Staff has been extremely busy with new owner information packets. They have sent out approximately 110 packets this last month. On Wednesday, the Office Staff went through some intensive training with DEX imaging for our new printers and copiers. The new machines are very impressive. The Office Staff is currently in the process of looking at ways to digitize some of our older files and reorganize our storage facilities to properly accommodate the needs of Rotonda West. It has been an exciting week for the Election Committee and Staff making sure all of the election documents, labels, suspensions, new owner information, and accounts receivable are updated so all eligible residents are able to vote.

The Rotonda West Maintenance Staff is currently mowing their 4th vacant

lot cycle in the Pine Valley section. We have been trimming and mowing around the Memorial Parks and the front entrance signs this week. We are currently mowing inside Broadmoor Park and will begin adding shell around all of our brand new benches. We are scheduled to finish mowing in the Pine Valley section next week. We are going to start mowing the Green Belts towards the end of the week. In addition, we have scheduled the crew to start trimming and mowing around the bridges on Rotonda Circle.

Bob Reynolds will start his 4<sup>th</sup> canal bank mowing cycle towards the middle of September.

The FloridAquatics Truxor has been concentrating on water lettuce hot spots this week. FloridAquatics has been removing water lettuce from the Pinehurst, Broadmoor, and Long Meadow canals. Water lettuce has been sprayed from West Blvd. to Long Meadow Park. The finger ponds in Pebble Beach and the Long Meadow section have also been sprayed. A second application of spray has been applied to the shoreline area at all of the Memorial Parks.

It has been a very productive week for five of the RWA Committees. I was able to sit in and listen to all the exciting ideas and discussions. I really appreciate all the feedback from our residents as they make some excellent points.

Please contact [tammy@rotondawest.org](mailto:tammy@rotondawest.org) if you are interested in joining the nature walk at Broadmoor Park on September 18<sup>th</sup> at 8:00 AM. Social distancing will be required.

Derrick Hedges  
Rotonda West Association Manager
